

TRANSFORMING TOP LEADERS AND EXECUTIVES

A Management Development Programme on Leadership, Management Transformation, Productivity and Change (5 days)

About the Programme

This is an intensive one-week program specially designed to rapidly advance the already developed skills of top managers and executives. This comprehensive program empowers participants to direct their competences at creating and leading change. It also prepares them for effective translation of strategic vision into gainful operational designs and performance. It teaches methods for proofing organisation's proposition, in addition to financial analysis, performance management and human capital development.

Target Participants

Executive Directors, Chief Operating Officers, General Managers and Group Heads of Departments

Modules

Leadership and change
Innovation, reform and models of change management
Strategic planning & benchmarking
Transforming HR and human capital
Repositioning performance management
Business resilience and strategic planning
Corporate social responsibility
